modern CRAFTSMAN

More than a collection, Modern Craftsman is a celebration of the artisan's workmanship and artistry. Natural wood elements take center stage, combining with neutral fabrics for an effect that's both sophisticated and timeless. The selection of pieces is generous, with versatility that moves easily from room to room. Familiar shapes have been updated, with simple lines and details for today's lifestyle.

Rich walnut – the craftsman's choice – is given a clear finish that highlights the wood's grain, color and character. Silver, bronze and graphite finishes add interest and sophistication to the walnut tones. In seating, comfortable upholstery features wooden legs and frames that speak with a Scandinavian accent. Clear glass accent tables keep the look open and inviting. Angular metal legs add visual strength to select sofas and chairs. And two contrasting beds – one a soft textural fabric, the other in a natural walnut – guards the sanctity of the guest or master bedroom.

Modern Craftsman reflects a true passion for quality and authenticity – attributes that are often in high demand but short supply. These pieces are beautifully designed and expertly made, intended to be enjoyed today and handed down for tomorrow.
